

Gloria Mayo

SOFTWARE QA ANALYST / APPLICATION SUPPORT / SYSTEMS ENGINEER

Woodbridge, ON · +1 437-677-9018 · givone@hotmail.com · linkedin.com/in/gloriamayo · gloriamay.com

Professional Summary

Systems Engineer with 15+ years of experience in software quality testing, application support, requirements gathering, defect and non-conformity documentation, and vendor coordination within ISO 9001 environments. Founder and Product Owner of AppointSuite, a live booking and CRM SaaS platform supported from requirements definition through functional validation, onboarding, and production deployment. Recently completed a Diploma in Computer Programming in Canada. Brings structured problem solving, documentation, traceability, and stable Canadian work experience to Software QA and Application Support roles.

Technical Qualifications

Software QA & testing: Manual and functional testing, requirements validation, issue investigation, defect and non-conformity documentation, corrective-action follow-up

Application & product support: Platform administration, end-user support, workflow analysis, issue reproduction, client onboarding, production validation

Delivery & quality: Requirements gathering, acceptance criteria, vendor coordination, ISO 9001:2015, ISO 31000, documentation, software implementation

Tools & technology: SQL fundamentals, HTML, CSS, Git, GitHub, Microsoft 365, CRM and multi-tenant systems; working knowledge of Python and Django

Professional Experience

Founder and Product Owner — AppointSuite

2026 – Present

Independent SaaS Project | Canada

- Led delivery of a Python and Django multi-tenant booking and CRM platform from requirements definition through functional validation, onboarding, and production deployment.
- Defined business workflows and acceptance criteria for appointment scheduling, customer management, reminders, reporting, and service-provider operations.
- Performed functional testing, investigated and reproduced issues, validated improvements, and prioritized product changes using operational scenarios and user feedback.
- Managed the product roadmap, documentation, release validation, and live deployment supporting Vaughan Sewing, a local alterations business.

Machine Operator — Costco Canada

2022 – Present

Vaughan, Ontario

- Perform inventory, receiving, and truck-loading operations in a high-volume environment governed by strict quality, food-safety, and workplace-safety procedures.
- Maintain accurate workflow execution and cross-team communication while operating forklifts and electric pallet jacks; certified in Transportation of Dangerous Goods and food-handling safety.

IT Systems and Quality Professional — Government of Antioquia

2008 – 2020

Medellin, Colombia | Official title: University Professional

- Administered and supported ISOlucion, the institutional ISO 9001 quality-management platform, including version implementation, end-user support, annual software planning, and vendor coordination.
- Performed functional and quality testing on institutional platforms; documented QA activities and non-conformities and followed corrective actions through resolution.
- Gathered requirements and supervised third-party development of SIVICO, a mobile revenue-surveillance and control system.
- Planned and supervised procurement of Microsoft, Adobe, and network-security software and supported institutional end users.

IT Contractor, Data Management — IDEA

2008

Medellin, Colombia

- Entered, validated, and maintained data in the government MECI quality-management system.

Administrative and Technical Support Roles — Early Career

1989 – 2007

Medellin, Colombia

- Progressed through administrative management, software sales, and technical help-desk roles, including user support at Empresas Publicas de Medellin and sales leadership at Standard Systems.

Education

- ♦ Diploma in Computer Programming — Stratford Career Institute, Canada — August 2026
- ♦ Bachelor's Degree in Systems Engineering — Antonio Narino University, Colombia — 2008
- ♦ Technologist in Data Systematization — Antonio Narino University, Colombia — 2005

Additional Education and Training

- ♦ Specialization in State Contracting — University of Medellin, Colombia — 2017
- ♦ Quality Management Systems and Quality in Software Development | ISO 31000 Risk Management | SQL Fundamentals
- ♦ English as a Second Language, ongoing
